Subject: RE: Shortage of appraisers?

To whom it may concern:

There is NO shortage of appraisers where I work in Central California (Fresno to Merced) and the Central California Coast (Monterey County).

Most appraisers I know refuse to work for AMC's. AMC's continue to try and pay the appraisers less, add more fee's (portal fee's, transaction fee's, etc) and send our work back with ridiculous and unwarranted revision requests.
